

**Maths** This term we will be working on our maths passports as well as place value, addition and subtraction and linking these to real life problems. As the term progresses we shall focus on graphs, multiplication and division and measurements using length and mass.

### **Religious Education**

Our Christian value this term is 'Thankfulness'. Children are asked to bring in a donation for our Harvest Festival this year (Monday 2<sup>nd</sup> October).

### **PSHE**

We will be learning about keeping ourselves safe at home and outside and linking that to the work of the Emergency Services, what they do and how they help us.

**English** A little bit of poetry will kick the term off. We shall then move onto our book of the term, 'The Story Machine' by Tom McLaughlin. Our focus will be the development of communication and how we can use rich language in our speaking and writing.

### **PE**

Football skills will kick off the term - passing, dribbling and game play. Balance and coordination will be explored through yoga.

### **History**

We will discover how William Caxton and Tim Berners-Lee both changed the way we communicate and journey back through time to discover how people recreated and printed text in the past.

# *Days of Old*

### **Design and Technology**

We are going to be linking DT with history this term and thinking about how paper was made in the days of William Caxton. We are going to design and make our own paper press.

### **Forest Schools**

Forest School will begin on Friday 15<sup>th</sup> September so please send children's clothes and wellington boots in a named bag. Please take the time to check out our new pond area. It's great!!
