<b>mass</b>	The amount of matter an object contains. The more matter something has, the more it will weigh.

What makes these superheroes special? What are their super powers?

**What is your super power?**

Facts and Knowledge

Some people have super powers! Superman can fly, Hulk has super strength and Spiderman produces his own webs. They all help people stay safe. There are real life superheroes around us too! Police Officers, doctors, nurses, firefighters, paramedics and many others also help us to stay safe. There are people who were around before we were born that are also superheroes because they did amazing things. Helen Sharman was the first British person to travel into Space. Stephen Hawking was an expert in Science and Maths. Mary Anning found and collected lots of fossils that have helped us to understand what our world was like thousands of years ago and Edward Jenner created medicines to help keep people safe from some diseases.
