

Year 3 - Homework - Term 5 and 6

These optional activities are designed to help engage your child in our current topic whilst they are at home. They are supposed to be enjoyable and completed by the child. Please wait until the exact date to bring to school.

Map making

Linked to our geography about types of settlements, have a go at designing your own town. Will you have a high street? Will you have roundabouts in your town? Where will the school go?

You might want to just draw a map of your town or you might even want to make yours a little bit 3D by making some of the buildings.

Due - 1st May

Bee B & B

As part of our learning about plants, we will be learning about the importance of pollinators. It would be great if you are able to create a home for pollinating insects in your garden, or as some people call them, a Bee B&B. Entirely up to you what your pollinator home looks like or is made out of. I look forward to seeing what you come up with.

Due - 22nd May

Light Toy

Have a go at making a toy that uses light in some way.

You might want to make a light spinner/Newton wheel (<https://www.stem.org.uk/resources/elibrary/resource/28166/newton-wheel#&gid=undefined&pid=1>)

Maybe you want to make a kaleidoscope? Perhaps you'd like to create some shadow puppets? Your choice!

Due - 19th June
