

## Year 4&5 - Homework - Summer Term - 2024/25

We have created these homework tasks to enrich our topics. House point tokens will be awarded for work completed. Each task shows when it can be handed in - please don't hand it in before the date shown. Parents/carers: Please support your child with these tasks but don't do them for them!

### Research a European River

To support our learning in Geography, we would like you to choose any river in Europe, but **NOT one in the UK**, and create a fact file based on your research. You should include information such as: the name of the river, location of the source of the river, location of the end of the river, length/ width, map of the river. You might also find out about animals or plants that live in/ near to the river and how the river is used.

Some examples of rivers are: Danube River, Seine River or the Rhine river.

**Due on Friday 23<sup>rd</sup> May**

### Animal Mask

During Term 6, our Science topic will be Living things and their habitats. We will specifically be looking at classification of animals. To show case our learning, we would like you to choose a particular animal group and create a mask based on that animal. **Can you tell us features of your animal, that might help us classify it?**

**Due on Friday 20<sup>th</sup> June**

### Recycle - Reuse - Repurpose

Make a pencil holder from items that you have at home - see ideas below. The idea of this task is to recycle, reuse and re-purpose items which you would have otherwise thrown away or recycled.

\*Please make sure any recycling items you use are completely clean, dry and safe to use.\*

This pencil pot has been made from three toilet roll tubes covered in newspaper.

You could paint, draw on or cover a glass jar or bottom of a plastic bottle.

**Due Friday 11<sup>th</sup> July**

Each piece of homework does not need to be completed in one go but it should be completed with care.

We look forward to seeing what you create!
