

Governors Vision Statement

Nurturing our children to love learning and be ambitious for life!

Vision

St. Mary's is a caring community which embraces Christian values and seeks to develop confident, successful learners. We are committed to valuing everyone and to providing a rich environment of opportunity.

Critical to our vision are the **children** achieving their potential, so every **parent** is confident that their child will leave St Mary's ready for the next stage in life. Our **staff** are well supported and they embrace the challenge of providing the best education to our children. **Secondary schools** welcome our children as an asset to their learning community, and our school plays an active part in the **wider community**. In all of this, the **church** is welcomed into the school where it helps to support the spiritual life of children and staff.
