WHAT IS BIKEABILITY? Bikeability is the national cycle training programme supported and funded by the Department for Transport. The course builds the skills and confidence of children who can already ride. Bikeability doesn't only make children better cyclists - potentially for the rest of their lives - but can help with general confidence and independent thinking. All of our Bikeability training is delivered by qualified, professional, DBS checked National Standard Instructors. Visit www.bikeability.org.uk for more information. This practical and enjoyable training will-

- ✓ Help your child develop their skills and understanding as a safe road user.
- ✓ Help them to be physically active and safe as part of a healthy lifestyle.
- ✓ Help their personal development building self confidence and independence.

Level 1 takes place in an off road environment and teaches riders how to control and master their bikes

Level 2 gives participants on-road experience in residential traffic to help them prepare to make short journeys by bicycle

If you would like them to take part please read through the following information.

This course develops the cycling skills and confidence of children who can already cycle. To benefit from Bikeability, your child must attend every session and practice what they learn after training. Bikeability skills and confidence will be lost without regular cycling. Bikeability engenders enthusiasm while building skills and confidence to cycle more safely, more often. Please support and encourage your child to continue cycling after training.

HOW TO BOOK Bikeability places are limited and places will be booked on a first come basis. Please complete and return a consent form (see overleaf) **to school** as soon as possible.
