

English

During this term, we will write to entertain, inform and persuade using a range of texts linked to our topic. We will write instructions and adventure stories as well as developing oracy through speeches, narrating nature films and reciting poetry. Spelling lessons will continue weekly and the children will enjoy our class book and texts in Guided Reading. Please continue to support your children by encouraging them to read frequently.

Maths

In maths sessions, the children will continue to explore fractions through their relationship to decimals and percentages. Children will complete calculations with decimals, investigate properties of shape and convert units, including volume. They will develop skills using reflection, translation and position. The children will also continue daily work on their times tables and arithmetic skills through Early Bird Maths.

Science

MATERIALS: *How are materials changed by other variables?*

We will look at the properties of materials and how materials can be changed. We will identify whether changes are reversible or irreversible.

CHANGES: *How do humans change as they grow?*

We will look at the changes humans go through as they develop from a foetus, through childhood and adulthood to old age.

Geography

OCEANS: *Why do oceans matter?*

In geography, we will be thinking about the importance of our oceans, the role they play in our world and about how to protect them. We will consider why our oceans are suffering and ways that we can support healthy oceans.

Summer

Year 5 2022-23

History

TETBURY: *Crime and Punishment*

In history, we will visit the Tetbury Police Museum and find out about the history of the building as well as what it is used for now. We will look at crime in the Victorian times, when the building was a working police station.

Computing

This term, the children will learn how to use Microsoft Word. We will be learning how to alter the look of the text, navigate around the document and know how to add and edit images.

PE

This term, we will have weekly sessions with Gloucester Rugby and develop athletic activities. Next term, the children will create sequences and learn different gymnastics movements. Forest Green Rovers will also be teaching us some football skills.

DT

The children will be developing their sewing skills through designing, making and evaluating a coin purse.

Music

The children will listen to a wide range of musical styles and learn the song 'Look into the Night'. They will accompany the music using glockenspiels.

PSHE

Our focus during this term will be *Relationships* where children think about the importance of different types of relationships. They will also look at *Changing Me* and the changes that happen as we grow.

RE

During the term we will be exploring the big questions:
 1) *What kind of King is Jesus?*
 and
 2) *What matters most to Humanists and Christians?*

Art

Children explore the work of architects and use drawing to collect, process and reflect upon ideas. Children then build an architectural model of their aspirational home or tiny house.
