

Where on Earth?

### READING FOR PLEASURE

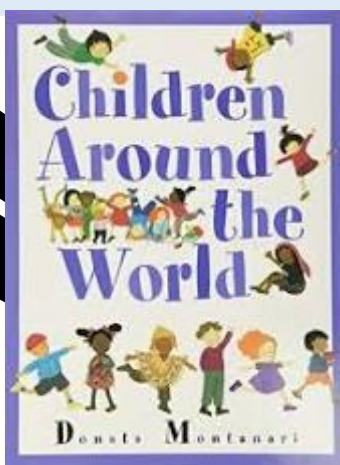

We will be reading *Around the world in 80 days*. This will provide stimulus for our fiction writing, thinking about different places to visit.

Our main class text for the term will be 'Around the World with Max and Lemon'. We will use this to develop narrative skills and predictive writing, along with core writing techniques.

To help with annotation and imagination we will use other stories.

We will also link this to our Geography topic, locating the 7 continents and 5 oceans. We will consider the different methods of communication used in this book in History, considering changes within living memory.

This will be our non-fiction text.
