

## English

The children will continue to enjoy reading their class book each day and sharing texts in Whole Class Guided Reading sessions. Please continue to support your children by encouraging them to read frequently. We will be writing to inform, entertain and explain using our topic as a stimulus. Spelling, punctuation and grammar lessons will take place each week.

## Maths

In maths sessions, the children will measure and calculate the perimeter and area of a range of regular and irregular shapes. When working with fractions, they will compare and order, add and subtract, identify equivalent fractions and convert between mixed numbers and improper fractions. In addition, arithmetic skills will be practised daily.

## Science

Our work in science this term will look at living things and their habitats. We will investigate and compare the differences in the life cycles of a mammal, an amphibian, an insect and a bird. We will also describe the life processes of reproduction in some plants and animals.

# Life on Earth

Year 5 Spring Term 2020

## Computing

The children will develop their database skills to record, store and present information electronically

## Geography

In geography, the children will use Ordnance Survey maps, compasses and grid references to build their knowledge of the United Kingdom and the wider world.

## Art and Design

### Cooking and nutrition

The children will understand seasonality and know where and how a variety of ingredients are grown, reared, caught and processed. They will learn about the principles of a healthy and varied diet and use this to plan and cook a dish.

## PHSE

Our focus during this term will be 'Dreams and Goals', where the children will know and understand a range of jobs, identify a job they would like to do when they grow up and understand what they need to do to achieve.

## RE

During the term we will be exploring the big question: *What does it mean if God is holy and loving?* We will study the importance of perseverance and justice.

## French

The children will learn to read and pronounce numbers to 20, name colours and begin to recognise and use words related to our topic.

## PE

The children will develop their agility and strength in gymnastics and dance and continue to develop their team game skills.
