

Year 4 ECO-WARRIORS HOMEWORK TASKS Terms 5-6, 2021-22

Let's make music

As part of our science unit on sound, we would like you to make a musical instrument. Using things found around your home, make an instrument that you can shake, pluck, bang or blow.

We will be using them in class to help us with our science investigation.

Please take care and ask for adult help if using sharp tools.

Due in on Friday 13th May

Not More Junk!

Please take care to complete both parts of this homework task...

1) Junk mail is unwelcome post that drops through your letter box and might include menus, leaflets and flyers. Have a chat with an adult at home about the mail that is delivered to you. *How much junk mail does your household receive in one week?* We would like you to record the number of unwanted items that are posted through your letter box each day, for one week. You can choose how to present your findings. A tally chart or a bar chart are just two ideas but you can be as creative as you like.

2) Design and make an anti-junk-mail sign to put on your front door or in your window to help reduce the amount of resources used on unnecessary items. People delivering junk-mail see many signs so think about making your sign stand out – making it clear and eye-catching. It can be designed using a computer or made by hand and coloured in.

Due in on Friday 10th June

Recycle - Reuse - Repurpose

Make a **pencil holder** from items that you have at home – see ideas below.

The idea of this task is to recycle, reuse and re-purpose items which you would have otherwise thrown away or recycled.

Please make sure any recycling items you use are completely clean, dry and safe to use.

This pencil pot has been made from three toilet roll tubes covered in newspaper.

You could paint, draw on or cover a glass jar or bottom of a plastic bottle.

Due in on Friday 8th July
